Research casts doubt on environmental benefits of hybrid working

According to new study from the University of Sussex Business School, a permanent post-pandemic switch to hybrid working may do nothing to reduce carbon emissions because the majority of remote workers travel further each week than their office-based colleagues.

Webinar: A Diversified Play You Can't Ignore

In this webinar, we will be discussing business-practice trends and how your customers are changing in the face of high inflation, employment challenges, and supply-chain disasters. This is especially true as it relates to the ink and toner category, and has resulted in record MPS growth with your SMB and mid-market customers.

A Turning Point For RTO Movement

Most federal workers are coming back to their desks this month. The long-awaited return of federal government employees to their offices is officially beginning, with enormous consequences for Washington, D.C.'s economy, perhaps bolstering downtown businesses and stimulating more private sector office use in the process.
